## Company Overview

Sadtaplast Trading Company has entered the global market to produce and export various types of disposable plastic containers and plastic kitchen containers. This company has always been proud to introduce plastic products with the highest quality and the largest variety to the market based on the needs of the day to meet different customer needs and tastes. Sadtaplast Trading Company has installed devices such as sheet extruders, thermoforming, and injection machines; it has also hired highly knowledgeable experts to constantly monitor all stages of production and continuously examine the raw materials in well-equipped laboratories for quality and hygiene to maintain the highest level of global standards in production. Sadtaplast Trading Company will spare no effort to manufacture products with maximum quality in order to gain the highest level of customer trust and satisfaction.

## Business Description

2

Over the last 50 years, the use of plastic products for the packaging and storage of foods and beverages has increased so dramatically that created a new era called the plastic age. Many countries have started advanced factories for the production of these products all over the world. The largest importers of plastic containers and disposable products are the United States, Canada and Japan. Using experienced specialists and designing new products at the global standard level, Sadtaplast Trading Company has been able to meet the needs of traders and merchants all over the world.

Among the companies producing plastic products in the world, Sadtaplast trading company has been able to meet the needs of traders and merchants all over the world by purchasing advanced machines from the United States, Germany, etc., and by utilizing the knowledge of the company's experienced specialists and designing new products at the global quality level. The world should eliminate and pave the way for entering international markets by expanding and continuing the production of these products.

## Vision and Values

Sadtaplast Trading Company aims to be the highest quality model and the leading manufacturer of plastic containers and disposable products in the world through maximum customer trust and satisfaction. We will spare no effort to maintain upgrading our knowledge on the latest technologies to ensure a maximum quality in production.
